# Dust Guard

# Air Pulse Vac Bags (3)

## Self-Cleaning, Heavy-Weight HEPA Rated, Zipper Bag

Div. of Scott Electric • 412-605-2992, #Direct

## Unstoppable Performance — Fits 9-17 Gal Tanks

The Original: Universal — Fits Most Silica Dust Extractors & Wet / Dry Shop Vacuums

Superior Durability w Stitched-On Cardboard Collar:

Bag Fills 100% ! No Tearing ! Use Less Bags ! Work Longer ! Cartridge Filters Stay Clean

Increase Production: **Less interruptions, Larger Collection Yields, Cartridge Filters Stay Clean**

Heavy-weight bag inflates & deflates, self-cleaning itself when vacuum is turned on and off and during filter cleaning cycle with automatic self-cleaning dust extractors. Dust is effectively released, powerful suction is assured, cartridge filters stay clean.

### Prevents Filter Mishaps:

Regardless of the project or the vac being used, *you can't afford the filter bag to fail* ----->

### Superior Production:

1. The outside of the bag stays clean  
- HEPA or cartridge filter is kept clean
2. Total Seal - vacuum cold fireplace ash, volumes of silica dust even using a standard wet/dry vac - *without dust escaping into a room*
3. HD Strength – will not prematurely burst inside the tank even if over filled - *will not tear or burst when tossed in a dumpster*
4. Sealable Bag – meets EPA/RRP, OSHA Silica Dust regulations for handling & disposal of hazardous debris
5. Versatile - *collect anything at the same time*: ultra fine powder, sharp objects, moist debris, rotten food, hot mastic, creosote, etc

Fleece Bags - left photo.

- 1) Made of inferior material and the cardboard collar is glued-on.
- 2) Dust escapes, suction drops, bags burst inside the tank, can't be overfilled, changing bags and replacing cartridge filters all to often is expensive, workers' health and safety are compromised.

SPECIFICATIONS — Stitched Cardboard Collar - allows bag to exceed collection yields without tearing or bursting:

- 2.5" ID Collar - fits 9-17 gal wet/dry vacs & dust extractors with a 2-1/2" OD (outside diameter) deflector port
- Fits: Bosch (all models including 300 CFM vac), Dewalt (both models), Dust Director®, Dustless, Fein, Hilti 300 CFM Vac, Makita, Milwaukee, Nilfisk, Ridgid, Shop-Vac, USA Dust Guard "Scaffold Vacs" (all models).

PRICING — PN: 136514      \$65.00 / 5 pk !      \$550.00 / 50 case.

# Air Pulse Vac Bags

## HEPA Micro-Fiber Bags (2)

99.97% Efficiency @ 0.3 Micron

**OSHA COMPLIANT # SELF-CLEANING # HEAVY-DUTY**

Two additional Air Pulse Bags, similar in performance and durability to the original — differences as follows:

### HEPA, Micro-Fiber Collection Bag

- ◆ Fits all 5-8 gallon vacuum tanks with a 2-1/2" OD deflector port (inside tank)
- ◆ HEPA rated @ 99.97% efficiency @ 0.3 microns
- ◆ Traps and contains ultra fine powders, silica dust, microscopic particles, allergens

- ◆ Fully enclosed bag, acts as a pre-filter to prolong the life of the main filter and minimize dust exposure during disposal
- ◆ Natural, self-cleaning action - maintains the vac's powerful suction
- ◆ Outperforms dust extractors with semi-automatic and automatic self-cleaning filters
- ◆ Self-cleaning - uses no electronics to prevent filter blinding
- ◆ Everything stays clean: outside of the bag, tank, cartridge filter
- ◆ Collects anything at the same time: Ultra fine powders, moist debris, rotten food waste, creosote, sharp objects (glass, nails, metal), wood dust, etc.

**PRICING:** PN: 5110290    \$875.00 / 125 Bags / Case

### HEPA, Micro-Fiber Collection Bag w/ Zipper

- ◆ Fits all 15-24 gallon vacuum tanks with a 2-1/2" OD deflector port (inside tank)
- ◆ HEPA rated @ 99.97% efficiency @ 0.3 microns
- ◆ Zipper bag is a combination of the HEPA and the Air Pulse Bags with the same features and performance — the differences are:

- ▶ Re-useable with a zipper
- ▶ Larger size (for 15 - 24 gallon tanks)
- ▶ Connection collar (to the inlet port in the tank) is reinforced plastic with a HD gasket; besides durability for dry debris and powders, the bag also collects wet debris including sludge and slurry.

**PRICING:** PN: 5110300    \$34.95 / Ea
