Dust Guard

Cyclone - 300 CFM, 120V

Cyclonic *Fine Dust* Separation

No Pre-Filter ! No Filter Cleaning

Div of Scott Electric • 4120-605-2992, #Direct

Available: July 2024

Revolutionary: HEPA Dust Extractor

- # NO PRE-FILTER — *To Clean, Blind, Monitor, Damage or Replace*
- # UNSTOPPABLE PERFORMANCE — *With No Pre-Filter to Cause Suction Drop, Productivity & Professional Results Improve*
- # LESS POWER REQUIRED — **POWERFUL 300 CFM MAINTAINED** *For use with 30" Grinders from a 20 amp, 120 volt circuit!*

TB300 Cyclonic HEPA Dust Extractor vs. Air-Pulse Filter Cleaning:

- Maximum CFM is Sustained — *No Suction Drop, Use & Draw Less Energy*
- No Pre-Filter to Blind, Damage, Monitor, Clean or Replace
- HEPA Filters (2) Stay Clean - *May Never Have to Be Replaced*
- Cyclone Module is Washable - *Vacuum anything: powders, sticky debris (terrazzo, coatings, adhesives), moist concrete dust, food waste — without damaging or compromising the efficiency and effectiveness of the cyclone module.*

CYCLONIC SEPARATION -
No costly & unhealthy pre-filter to constantly touch, clean & replace!

— *with no pre-filter to clog, powerful suction is sustained!*

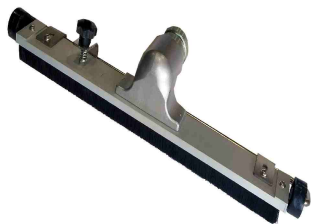

How Effective & Productive is the TB300 Cyclone Dust Extractor?

For every 40 lbs. of powder collected in the Longopac® bag, a tablespoon of powder escapes the cyclone and is contained in the micro-fiber bag — HEPA filters (2) stay clean, powerful 300 CFM sustained — *No pre-filter to clean, monitor or replace - just keep working!*

DUAL CYCLONIC SEPARATION
Separates, collects & discharges over 99% of the debris to the Longopac® collection bag - HEPA filters (2) stay clean, powerful suction sustained, motors and the 20A 120V circuit don't overheat.

17" Pro Floor Sweep Brush

CLEAN SWEEP RESULTS — as effective and productive as the TB300 is as a HEPA dust extractor, its impressive combination of 300 CFM and 100" of H2O makes the TB300 exceptional at sweeping floors after concrete & terrazzo grinding and sawing operations.

17" Professional Floor Sweep Brush — Nearly Unbreakable: constructed of HD aluminum with adjustable wheels and brushes. Sweeping performance will vacuum the finest dust particles from every conceivable type of surface *including using the full width of its 17" brush!*

TB300 Specifications: 2-Motor, 120V, 1000 watt x 2 (10.0 amp ea), 300 CFM, 100" H2O, 2" Inlet Port, 2" x 20' hose, 2" ID cuffs, 22"w x 32"l x 57"h, 130 lbs., continuous plastic bag, (5) micro-fiber collection bags, HEPA filters (2), 17" pro floor brush with 2" x 49" aluminum single-bend wand.
