Dust Guard

Industrial Wet/Dry Vacs

2 & 3-Motor, 120V

216 - 315 CFM # 92" - 140" (H20)

Div of Scott Electric • 4120-605-2992, #Direct

Multi-Use # Fine Dust # Sludge # Grease # Slurry

X-POWERFUL SUCTION # LARGER COLLECTION YIELDS
— All models with wet/dry filters, complete tool kits, 2-year warranty.

Free Shipping on 2-Vacs

CS1600S — 2-Motor, 15.0 Gal Compact Tank on Tip'Pour Cart, 120V, 2-Stage Motors: 216 CFM, 72" H20

- Power:** • 120 Volt, 800 Watt Motors (2) ~ Low amp draw, high efficiency – operates from a 15-amp circuit
- Performance:** • Holds over 60 lbs. of silica dust ~ A+ size and weight for use on scaffold (i.e. tuck pointing)
- Filtration:** • Cyclonic separation with high efficiency (HE) cone filter, separates debris from air stream. Includes Dacron Cover to protect the HE filter by shedding dust, washable; Pre-Filter Air Pulse Vac Bag (5), keeps the HE primary filter and Dacron bag clean; Air Pulse Bag w/ "Zipper"(1); Float Shut-Off System for wet extraction.
- Size:** • 21.5" x 23.5" x 38", Weight: 47 lbs.
- Equipment:** • 1.5" x 10' hose w/ 2" ID smooth cuff, professional 8-pc wand and nozzle kit. 2-Year Warranty.

\$999.00

CS1700 — 2-Motor, 22.0 Gal HD Poly Tank, 120V, 2-Stage Motors: 216 CFM, 116" H20

- Power:** • 120 Volt, 8.50 Amp Motors (2) ~ Low amp draw, high efficiency motors – operate both motors from a 15-amp circuit
- Performance:** • Rugged 22 gallon HD polyethylene tank resists cracking, denting and rusting
- Compact vacuum with quiet motors and independent on/off switches
- Includes 26" squeegee (right) with rubber blades for water and slurry pick-up – with or without the squeegee, maneuvering the vacuum is child's play
- Easy to empty: use the 1.5" x 3' drain hose or simply tilt backwards.

\$899.00

- Filtration:** • Cyclone deflector, cone filter, Dacron cover (protects the cone filter, sheds fine dust and liquids), cone filter & Dacron cover are washable.
- Air Pulse Collection Bag (5) – pre-filter for ultra fine dust, keeps the above filters clean
- Wet Filter with Float Shut-Off System – the above filters are removed

Size: • 21.5" x 23.5" x 38", Weight: 47 lbs.

Equipment: • 1.5" x 10' hose w/ 2" ID smooth cuff, professional floor sweep tool kit (right), 26" tank mount squeegee, 3' flexible drain hose, Air Pulse Self-Clean Vac Bags (5).

CS1700S — 2-Motor, 18.0 Gal Metal Tank, 120V, 2-Stage Motors: 216 CFM, 116" H20

- Identical Specs, Power, Performance, Size, Filters, Equipment to the above CS1700.
- Difference: 18.0 gallon chrome plated HD metal tank on a powder coated *tipping cart*, no tank mounted squeegee.

\$849.00

CS235 — 2-Motor, 15.8 Gal, 120V, Flow Mix Head: 235 CFM or 140" H2O

\$1,190.00

- Power:**
- 120 Volt, 5.83 Amp Motors (2) ~ Low amp draw, high efficiency motors, operate both motors from a 15-amp circuit
- Performance:**
- Slide the Flow Mix lever to match your application:
 - > Dust Extraction Mode: 235 CFM (airflow), 90" H2O (lifting power)
 - > Sweep Mode: 123 CFM, 140" H2O. Extreme lifting power, used to sweep floors after concrete grinding (dry or wet) or vacuuming heavy objects including water, dirt, rocks, sludge, slurry, etc.
- Filtration:**
- Cyclone deflector, cone filter, high efficiency (HE) pleated filter, Dacron filter cover (protects the filters, sheds fine dust and water), all three filters and the Dacron cover are washable.
 - Air Pulse Collection Bag – pre-filter, keeps the above 3-filters clean
 - Wet filter with float shut-off system – the above 4-filters are removed
- Size:**
- Very compact and portable — complete vacuum including the cart provides superior handling, maneuvering and transporting.
 - Dimensions: 21.5" x 23.5" x 38", Weight: 47 lbs.
- Equipment:**
- 1.5" x 9' w/ 2" ID smooth cuff, professional wand and nozzle kit (crevice tool, floor sweep with brushes & squeegee, 2-part metal, 2-part plastic wands, hose end cuff), 3' flexible drain hose, Air Pulse bags (5).

CS235-BV — 2-Motor Barrel Vac, 45-Gal, 120V, Flow Mix: 235 CFM or 140" H2O

\$2,989.00

- Power:**
- 120 Volt, 5.83 Amp Motors (2) ~ Low amp draw, high efficiency motors, operate both motors from a 15-amp circuit
- Performance:**
- Slide the Flow Mix lever to match your application:
 - > Dust Extraction Mode: 235 CFM (airflow), 90" H2O (lifting power)
 - > Sweep Mode: 123 CFM, 140" H2O. Extreme lifting power, used to sweep floors after concrete grinding or to vacuum heavy debris such as water, dirt, rocks, sludge, slurry, etc.
- Filtration:**
- Cyclone deflector, cone filter, high efficiency (HE) pleated filter, Dacron filter cover (protects the filters, sheds fine dust and water), all three filters and the Dacron cover are washable.
 - Wet filter with float shut-off system – the above 3-filters are removed
- Equipment:**
- 45-Gal Capacity Metal Barrel, Powder Coated with 3" Drain-Gate; HD Metal Swivel Dolly with 5-Rubber Casters, Powder Coated; Dual Wet/Dry Filters (see above), 20" HD Aluminum Floor Sweep with 2" x 49" aluminum wand, brush set & rubber squeegee (wheels, brushes, squeegee are adjustable), 2" x 50' premium flex & durable hose with cuffs.

CS315-BV — 3-Motor Barrel Vac, 45-Gal, 120V, 2-Stage Motors: 315 CFM, 92" H2O

\$2,899.00

- Power:**
- 120 Volt, 7.75 Amp Motors (3), individual on/off switches, two power cords, operate two motors from a 15 amp circuit
- Performance:**
- Combination of 315 CFM & 92" H2O provides unmatched performance and motor life as a powerful wet / dry vac.
- Filtration:**
- Cyclone deflector, cone filter, high efficiency (HE) pleated filter, Dacron cover filter (protects the filters, sheds fine dust and water), all three filters are washable.
 - Wet filter with float shut-off system – the above 3-filters are removed
- Equipment:**
- Same as the above 2-Motor Barrel Vac, #CS235-BV.
