HEPAPro Vacs - Certified & Exceeds the New EPA RRP & OSHA Silica Dust Standards

FAIL-SAFE, FULLY SEALED: all operating air is expelled through the True HEPA filter as per the EPA governing standard. If, for any reason, the HEPA filter is not installed correctly, the HEPAPro vacuum will fail to pick-up, preventing an unintentional leak or exposure to dust.

TRUE HEPA VACUUM: equipped with an oversized, true HEPA filter – individually tested and certified to be 99.97% efficient at 0.3 micron with a test label affixed to the filter (pic, right.)

CERTIFIED HEPA LABEL: True HEPA Filter with certified test label, complete with numbers: airflow, penetration rate and serial number.

HEPA "like" FILTERS: While they may resemble a true HEPA filter, are not built to the same standards and don't include the individually tested certification label with serial number. Vacuums that claim to provide clean air quality with "true" HEPA filtration, but the certification test label is not affixed to the filter *are not guaranteed to have the HEPA efficiency rating of 99.97% @ 0.3 micron.*

HEPA PRO 4

Technical Specifications:

Model:	HEPAPro 4 Silica
Item Number	125-1232-25-S
Motor:	1.5 HP
Motor Type:	2-Stage, Air Thru
Amps:	11.8
Waterlift:	130"
CFM:	150
Noise Level:	65 decibels
Construction:	Stainless Steel Tank, Molded Plastic Base and Lid
Cord:	25 ft
Warranty:	1 year
Shipping Info:	
Weight	18 lbs.
Dimensions	17" x 17" x 28"
Pallet Qty	16

Price: \$349.00

4-Gallon HEPA Canister Vacuum

- Powerful 4-gallon, dry only HEPA vacuum with exceptional stability.
- Designed for the professional contractor for quick clean-ups, this HEPA vacuum has a low profile, compact design that makes it extremely maneuverable and easy to transport.
- Connect the HEPAPro 4 to power tools for superior dust management and to meet EPA's RRP requirements.
- Includes: 1.25" x 6ft. Hose, extension tube, telescoping wand, 2-position ergo slide floor tool, dusting tool, upholstery tool, crevice tool, collection bags (2) — see page 4 & 5 for replacement tools and filters.

Features & Benefits

- 1.5 HP commercial grade motor provides the air-flow and suction of vacuums twice its size.
- HEPA filters are individually tested and certified to have a minimum efficiency of 99.97% at 0.3 microns based on particle count test method, IEST-RP-CC001.
- Includes conveniently mounted electrical receptacle for connecting power nozzles.
- Onboard tools and power cord hooks for quick access and storage.
- Low profile design prevents tipping while providing greater mobility.
- Conveniently located foot activated on/off switch.
- Quiet operation for use in homes and public areas.
- Certification - meets UL, CSA and EPA's RRP standards.

HEPA PRO 10

Fully Certified
HEPA Dust Extractor
Meets or exceeds all EPA
RRP guideline requirements.

Technical Specifications:

Model:	HEPA Pro 10 <i>Silica</i>
Item Number	125-1206-20-S
Motor:	2.0 HP
Motor Type:	2-Stage, By-Pass
Amps:	11.1
Waterlift:	105"
CFM:	125
Power Tool Outlet:	Yes, 15 Amp Max, power tool turns vac on/off
Filtration:	5-Stage HEPA Self-Clean
Construction:	High Density, Rotational-Molded Polyethylene Tank
Cord:	12/3 x 50 ft
Warranty:	1 year
Shipping Info:	
Weight	23 lbs.
Dimensions	16" x 16" x 25"
Pallet Qty	18
Price:	\$639.00

10-Gallon HEPA Dust Extractor

- 100% HEPA Certified Vacuum - exceeds EPA's Renovations, Repair and Painting Rule (RRP) for lead dust recovery, asbestos, bacteria, silica dust.
- Powerful 2-HP HEPA Vacuum, equipped with an individually tested and certified HEPA Filter providing a minimum efficiency of 99.97% at 0.3 microns.
- 10-Gallon Collection Yield - A+ size, weight, performance and features to use on scaffold ~ holds 35 lbs. of silica dust without suction drop.
- Includes: 1.5" x 10' hose w/ end-cuffs, 2" ID cuff for dust guard, 2-piece steel wand, dusting brush, floor brush, crevice tool, (5) Air Pulse Filter Collection Bags (shipped separately) — *see page 5 for replacement tools and filters.*

Features & Benefits — HEPA Pro Models: 10, 13, 13-250.

- **5-Stage *Natural* Self-Cleaning Filter:** FAIL-SAFE, HEPA CRITICAL-DUST CERTIFIED, UNSTOPPABLE PERFORMANCE. 100% tank fill capacity without suction drop - work Longer, faster, no dirty filters to clean, HEPA filter is not directly exposed to incoming debris, protected by the Dacron bag (right): self-cleaning, washable. Three (3) downstream filters plus the Air Pulse collection bag protect the true HEPA filter. In the event of failure by one of the downstream filters, the HEPA filter and vacuum are both certified to prevent the bypass of dangerous matter back into the work area —*all without using electronics.*
- Air Pulse Collection Bags, Self-Cleaning (right): prevents filter loading, optimizes vac's performance, keeps the downstream filters clean. Fills to 100% capacity if the tank, use less bags, HD strong, will not tear or prematurely burst even when tossed in a dumpster. Want uninterrupted suction performance and longer motor life, use the Air Pulse bag - (5) bags included per model (shipped separately.)
- **Powerful Suction Sustained - by preventing a suction drop of just 10% increases motor life & reduces amperage draw by 33%!**
- **EXTREME & DIVERSE APPLICATIONS:**
 - > Filter system withstands the most abusive applications including 600°F temperatures
 - > Besides vacuuming volumes of ultra fine powder without suction drop while keep the inside of the tank clean, the 5-stage filter system is ideally suited to vacuum hot mastic during coating removal projects.
- Compact size and design for use on scaffold or anywhere that space and power is limited - won't trip a 20A breaker even when using a 15a grinder
- 3-HEPA Pro Models - All with interchangeable motor heads, tanks, hoses, filters, parts, etc.
- 1-motor models (2) equipped with power tool outlet with capacity to power a 15 amp angle grinder w/o tripping a 20A breaker
- **TOUGH-GUY STRONG, USA ENGINEERED:**
 - > Ribbed hose barb for inlet - won't break - accepts both 1.5" and 2" hoses
 - > Heavy gauge power cord (12ga x 50'): eliminates needing an extension cord, extra thick "copper" wire helps prevent the motor from running hot & tripping breakers
 - > Tank, Lift Handle, Steel Hold-Down Clamps: structural ribbed, enforced polyethylene with rubber wheels & steel hold-down clamps to conform to HEPA & OSHA silica dust regulations
 - > **MOTORS:** Uses the same Ametek 2-stage motors (right) that are used in the large concrete dust extractors vs. smaller, high CFM, 1-stage motors (far right) used in competitive vacs — *don't be misled by specification numbers, 2-stage motors always outperform and outlast!*

HEPA PRO 13

Fully Certified
HEPA Dust Extractor
 Meets or exceeds all EPA
 RRP guideline requirements.

Technical Specifications:

Model:	HEPAPro 13 <i>Silica</i>
Item Number	125-1209-20-S
Motor:	2.0 HP
Motor Type:	2-Stage, By-Pass
Amps:	11.1
Waterlift:	105"
CFM:	125
Power Tool Outlet:	Yes, 15 Amp Max, power tool turns vac on/off
Filtration:	5-Stage HEPA Self-Clean
Construction:	High Density, Rotational-Molded Polyethylene Tank
Cord:	12/3 x 50 ft
Warranty:	1 year
Shipping Info:	
Weight	30 lbs.
Dimensions	14.5" x 18.5" x 27"
Pallet Qty	12
Price:	\$670.00

13-Gallon HEPA Dust Extractor

- 100% HEPA Certified Vacuum - exceeds EPA's Renovations, Repair and Painting Rule (RRP) for lead dust recovery, asbestos, bacteria, silica dust.
- Powerful 2-HP HEPA Vacuum, equipped with an individually tested and certified HEPA Filter providing a minimum efficiency of 99.97% at 0.3 microns.
- 13-Gallon Collection Yield - A+ size, weight, performance and features to use on scaffold ~ holds 50 lbs. of silica dust without suction drop.
- Includes: 1.5" x 10' hose w/ end-cuffs, 2" ID cuff for dust guard, 2-piece steel wand, dusting brush, floor brush, crevice tool, (5) Air Pulse Filter Collection Bags (shipped separately) — *see page 5 for replacement tools and filters.*

HEPA PRO 13-250

Fully Certified
HEPA Dust Extractor
 Meets or exceeds all EPA RRP
 guideline requirements.

Technical Specifications:

Model:	HEPAPro 13-250 <i>Silica</i>
Item No.	125-1210-20-S
Motor:	3.4 HP
Motor Type:	2-Stage, By-Pass
Amps:	8.0 x 2
Waterlift:	100"
CFM:	250
Power Tool Outlet:	No
Filtration:	5-Stage HEPA Self-Clean
Construction:	High Density, Rotational-Molded Polyethylene Tank
Cord:	12/3 x 50 ft
Warranty:	1 year
Shipping Info:	
Weight	35 lbs.
Dimensions	14.5" x 18.5" x 32"
Pallet Qty	8
Price:	\$1,340.00

13-Gallon HEPA Dust Extractor

- 100% HEPA Certified Vacuum - exceeds EPA's Renovations, Repair and Painting Rule (RRP) for lead dust recovery, asbestos, bacteria, silica dust.
- Powerful 2-HP HEPA Vacuum, equipped with an individually tested and certified HEPA Filter providing a minimum efficiency of 99.97% at 0.3 microns.
- 13-Gallon Collection Yield - A+ size, weight, performance and features to use on scaffold ~ holds 50 lbs. of silica dust without suction drop.
- Includes: 2.0" x 20' hose w/ end-cuffs, 2" ID cuff for dust guard, (5) Air Pulse Filter Collection Bags (shipped separately) — *see page 5 for replacement tools and filters.*
