Original USA Made Soff-Cut® Blades - Original USA Manufacturer

**Longer Life, Smoother, Cleaner Cuts** - Made in America from USA Steel, Workers, Diamonds and with Passion. Each blade is built with a knock-out arbor (right) to fit both Soff-Cut® and standard walk-behind saws with 1" arbors. Our **Next Day "blue" Blade (above, right)** is used when the early entry cutting window is missed or when cutting quick cure concretes - the blade provides the same cutting speed and sharp edge finish.

Skid plates are not included with the blades - they are not required due to superior materials, manufacturing equipment & quality control

that is put into each blade — you will not find a more precision cutting early entry blade - *guaranteed*. Please see our website to purchase the skid plates individually.

Size	Price Ea	Next Day Blade	ORANGE Med Aggregate	BLACK Soft Aggregate	Yellow Med Aggregate	Red Med / Hard	Purple Very Hard
