Dust Guard

Battery Power PAPR No Hoses, Cords, Belt Clips No Fit Test + Beards Allowed

Div. of Scott Electric • 412-605-2992 (Direct)

Lightweight, Low Profile

All-in-One Protection: Respirator, Head, Hearing, Eye & Face

- > No Breathing Resistance
- > Retractable Face Shield - Clear Lens
- > No Hoses or Waist-Mounted Power Packs

Not Everyone can use a Tight-Fitting Respirator

Any Respirator with Straps Requires the Following:

- Breathing through a filter causes the lungs "to work" *which may lead to overexertion, dizziness, injury and even death*
- Pulmonary Function Test - shows the condition of our lungs
- No facial hair, not even a one-day-old-beard is allowed!

**Air Powered ~ PAPR's "Gives You Air"
— Eliminates Breathing Resistance —**

PAPR 3000 - \$1,520.00

#PF3000-H2SB-03
Hard Hat w/ Elastic Chin Cover

- * 7.7 CFM, 25 APF Rating
- 5-Hour Battery Life / Charge
- 1-Filter: **HEPA HE P100**
(silica dust / lead paint protection)
- Weight: 1.9 lbs.

PAPR ESM+ - \$1,980.00

#PR05814-V-0A1
Hard Hat w/ Shoulder Hood

- * 8.2 CFM, 1000 APF Rating
- 7-Hour Battery Life / Charge
- Host of Options Available:
Filters & Visors:
Weight: 3.3 lbs.

Advanced LED's + Audible Warning

* Above models provide almost twice as much air than what we can humanly consume which is 4.0 CFM. The excess air provides a cooling effect to help reduce body heat, improve safety & production, and is the key factor that prevents the visor from fogging.

APF Rating (Assigned Protection Factor) — corresponds to the protection rating of any respirator. Highest available APF is 1000. APF of a N95 paper dust mask is 10.

ACCESSORIES & REPLACEMENT - PAPR 3000

PF3000-02-002: P100 HEPA Filter, 5 Pk	\$ 235.00
PF3000-04-004: P100 Pre-Filter + Odor, 50 Pk	\$ 85.50
PF3000-03-046: Storage / Carry Bag	\$ 70.50
PF3000-03-054: Replacement Neck Cape	\$ 60.93
PF3000-04-001: Air Defenders, Ear Muff, NRR 22	\$ 34.37
PF3000-03-003: Rechargeable Battery	\$ 117.00
PF3000-03-047: Battery Charger	\$ 235.00
PF3000-04-022: Visor Protectors, 4 pack	\$ 24.22
PF3000-03-022 * Tychem Hood / Visor, 10 Pk	\$ 621.33

* *Ungradable to APF of 1000 with the Tychem Hood. The hood also protects the helmet & visor when applications are creating excessive dust (i.e. concrete & masonry grinding.)*

3+ Discount (Order 3 of any model)

Model, #PAPR 3000 - **\$1,440.00**
Model, #PAPR ESM+ - **\$1,890.00**

Each PAPR includes: (2) Batteries, Charger, Ratchet Suspension HEPA Filter, LED's to show low battery and airflow warnings.

Wide Vision Visor - provides perirhinal viewing
Impact resistant, anti-scratch coating on inside & out.

Average battery life: 3 years.

ACCESSORIES & REPLACEMENTS - PAPR ESM+

PR02020SP: NIOSH HEPA Filter, 8 Pk	\$509.00
PR02026SP: HEPA HE / HF / HC Filter, ea	\$131.00
PR05806SP: Rechargeable Battery (2 required)	\$149.00
PR02040SP: Battery Charger	\$246.00
PR02510SP: HD Replacement Lens, 4 Pk	\$ 128.00
PR02545SP: Visor Protector Overlays, 6 Pk	\$ 29.00

Available: Tinted Welding Lens, Optional Filters - see website for pricing

3000 Welding PAPR

Battery Power Air Purifying Respirator

All-in-One Protection: Respiratory, Head, Hearing, Eye & Face

- > No Breathing Resistance
- > Retractable Face Shield - Welding Lens
- > No Hoses or Waist-Mounted Power Packs

KEY FEATURES

- Identical to the PAPR 3000 (above), but with retractable welding shield instead of the clear visor
- Self-contained PAPR - ideal for protection from dusts, particulate and metal fumes including hexavalent chromium, manganese, lead and silica.
- Battery Powered – No Hoses. Provides 7.7 CFM (the human body can only consume 4 CFM of air)
- Air Supplied - eliminates breathing resistance. The PAPR 3000 "Gives You Air" — provides almost twice as much air than what we can humanly consume.
- Adjustable for many head sizes with Ratchet Suspension
- Status indicator LED in front of helmet for low battery and low airflow alarms
- P100 HEPA filter cartridge — provides the highest protection for personal respiratory protection, blocking 99.9% of particles 0.3 microns or larger including lead paint.

* Assigned Protection Factor (APF) corresponds to how much protection a respirator can provide. The larger the APF the greater the protection. Highest available APF is 1000.

ACCESSORIES & REPLACEMENT ITEMS – PAPR 3000

PF3000-02-002: P100 HEPA Filter, 5 Pk	\$ 235.00

Welding Model
w/ Hard Hat,
Auto Darkening
Welding Lens &
Retractable Shield

APF Rating: 25 *

\$1,790.00 — 7.7 CFM, 25 APF * #PF3000-H2WE-03

- > Hard Hat w/ Ratchet Suspension
- > Retractable Shield
- > Auto Darkening Lens - adjusts to the material being welded
- > Batteries (2), Charger, HEPA Filter
- > LED's - show low battery and airflow warnings.

Uses the same batteries & filters as all 3000 Series models.

\$1,690.00 3+ Volume Discount Price

APPROVALS	3000 Welding Hard Hat, Model: PF3000-H2WE-03
Respiratory Filter Type	NIOSH 42CFR84, CSA Standard, Z94.4 P100 HEPA, optional pre-filter for odor, nuisance, spark arrestor
Air Flow Rate	7.7 CFM
Weight	3.6 lbs.
APF (Assigned Protection Factor)	25
Head Sizes, Range	6-3/4" - 8"
Battery	Lithium Ion
Battery Duration	5 Hours
Recharge Time	2 Hours
