

# Battery Power PAPR

Lightweight, Low Profile, No Hoses

**All-in-One Protection: Respiratory, Head, Hearing, Eye & Face**

- > No Breathing Resistance
- > No Hoses or Waist-Mounted Power Packs

## KEY FEATURES

- Lightweight with enhanced features for maximum mobility, vision, protection and simplified use — ideal for pharmaceutical, healthcare, nuclear, laboratory and clean-room environments for protection against respiratory hazardous particulate.
- Battery Powered – No Hoses. Provides 7.7 CFM  
(we can only consume 4 CFM of air)
- Air Supplied - eliminates breathing resistance. The PAPR 3000 “Gives You Air” — provides almost twice as much air than what we can consume.
- Adjustable for many head sizes
- Status indicator LED in front of helmet for low battery and low airflow alarms
- P100 HEPA filter cartridge — provides the highest protection for personal respiratory protection, blocking 99.9% of particles 0.3 microns or larger.

\* Assigned Protection Factor (APF) corresponds to how much protection a respirator can provide. The larger the APF the greater the protection. Highest available APF is 1000.

## ACCESSORIES & REPLACEMENT ITEMS – PAPR 3000

PF3000-02-002:	P100 HEPA Filter, 5 Pk	\$ 245.00
PF3000-04-004:	P100 Pre-Filter + Odor, 50 Pk	\$ 89.00
PF3000-03-046:	Storage / Carry Bag	\$ 79.00
PF3000-03-054:	Replacement Neck Cape	\$ 64.00
PF3000-04-001:	Air Defenders, Ear Muff, NRR 22	\$ 39.00
PF3000-03-003:	Rechargeable Battery	\$ 135.00
PF3000-03-047:	Battery Charger	\$ 238.00
PF3000-04-022:	Visor Protectors, 4 pack	\$ 25.00
PF3000-03-022	* Tychem Hood / Visor, 10 Pk	\$ 649.00

\* APF Rating of 1000 with the Tychem Hood. The hood also protects the helmet & visor when applications are creating excessive dust (i.e. concrete & masonry grinding.)

## Pharma Model

Open-Frame Hardhat with Tychem Hood & Visor

APF Rating: 1000 \*

**Healthcare,  
Pharmaceutical  
Nuclear, Lab  
Applications**

**\$1,450.00** — Provides 7.7 CFM, equipped with Ratchet Open Frame Helmet, Tychem Hood & Visor, (2) Batteries, Charger, HEPA Filter, LED's show battery and airflow status. Uses same batteries & filter as all 3000 series models.

**\$1,360.00** 3+ Volume Discount Price

Hood fits over the Open Frame Helmet. Hood also fits Hardhat 3000 PAPR's.

Open Frame Helmet with ratchet adjustment for head sizes. Tychem hood fits over the open frame cap.

## APPROVALS

3000 Pharma, Model: PF3000-F6NA-03

Respiratory Filter Type	NIOSH 42CFR84, CSA Standard, Z94.4 P100 HEPA, optional pre-filter for odor, nuisance, spark arrestor
Air Flow Rate	7.7 CFM
Weight	2.1 lbs.
APF (Assigned Protection Factor)	1000
Head Sizes, Range	6-3/4" - 8"
Battery	Lithium Ion
Battery Duration	5 Hours
Recharge Time	2 Hours

# EMS Battery PAPR

Lightweight, Low Profile, No Hoses

## All-in-One Protection: Respiratory, Head, Hearing, Eye & Face

- > No Breathing Resistance
- > Retractable Face Shield - Clear Lens
- > No Hoses or Waist-Mounted Power Packs

### KEY FEATURES

- EMS PAPR with open frame helmet, retractable visor (clear) and elastic chin cover. Note: the above 3000 Pharma PAPR uses the same open frame helmet without the retractable visor, but with the Tychem hood and visor.
- Battery Powered – No Hoses. Provides 7.7 CFM  
(we can only consume 4 CFM of air)
- Air Supplied - eliminates breathing resistance. The PAPR 3000 "Gives You Air" — provides almost twice as much air than what we can consume.  
Half and full-mask respirators require you to breath through a filter which causes your lungs to work harder. These types of respirators require a pulmonary function test which shows how well the lungs are working. Not all employees can use a tight-fitting respirator.
- Adjustable for many head sizes
- Status indicator LED in front of helmet for low battery and low airflow alarms
- P100 HEPA filter cartridge — provides the highest protection for personal respiratory protection, blocking 99.9% of particles 0.3 microns or larger.
