Small, Comfortable, Exception Vision

GVS Respirators

Dust, Chemical, Fume & Virus Protection

Elipse Half-Mask Respirator - fits under a Full Face Shield or Welding Mask — Models: SPR451, SPR457

Integra Half-Mask - same Elipse Half-Mask respirator plus integrated Goggles Models: SPR549, SPR550

Integra Half-Mask "Chemical" Organic Vapors, Acid Gas Chemicals & P100 Particulate Models: SPR555, SPR556

Both the Half-Mask & Integra models use the same Filters.

* **GVS Pleated P100 HEPA Filter:** Moisture Resistant, Re-Useable, Reduced Breathing Resistance, 50:1 Life vs Charcoal Filter 99.97% or higher efficiency rating at 0.3 micron particle size - you can't do any better than a P100 rated filter. Protects against dust, mist & fumes - silica, coal, grain & wood dust, asbestos, mold, glass & composite fibers, lead fumes, poultry, powders (dairy), spices, pharmaceutical powders, bacteria, viruses.

GVS Respirator - Small, Comfortable to Wear - Similar in Size to a N95 Mask

Re-Useable, Cleanable, Cost Effective, Replaceable Parts

GVS - Exceptional Comfort: soft, flexible thermoplastic mask provides all day comfort and the cloth, elastic straps provide a superior, comfortable seal to your face. The wide non-return valve in the center minimizes the user's breathing resistance and reduces fogging inside goggles or glasses.

Both filters (SPR321 & SPR450) are used in the Half-Mask & Goggle Respirators

PROTECTS AGAINST

Bacteria and virus (such as Covid 19) at 99,99%(BFE)
Particulates >0.3 microns (Minimum Efficiency of 99.97%)

NO EXHALATION VALVE, ENABLING PROTECTION OF WEARER AND PEOPLE EXPOSED BY
FILTERING INHALATION AND EXHALATION AIR WITH P100 PLEATED HEPA FILTERS

Extremely light and compact respirators (4.5 oz), with unique and low profile filters, designed to fit the contours of your face and give the user a wide field of vision

Provide cost savings, since ELIPSE respirators are designed for repeated cleaning and decontamination, contrarily to disposable respirators

Great comfort thanks to a soft medical grade thermoplastic elastomer that is hypoallergenic (without latex, silicone, and odor-free) with an easy to adjust headband
