

# PF60+ PAPR

Powered Air Purifying Respirator

**Maximum Mobility & Protection from  
Particulate Hazards**

**All-In-One Respiratory, Head, Face  
Eye & Hearing Protection**

## KEY FEATURES

- No Fit Test Needed – Beards Allowed
- Battery Powered – No Hoses. Provides 8.1 CFM (you can only consume 4 CFM, competitive models provide 6.2)
- Air Supplied - eliminates breathing resistance. The PAPR PF60+ “Gives You Air” — provides twice as much air than what you can consume.

Half and full-mask respirators require you to breath through a filter which causes your lungs to work harder. These types of respirators require a pulmonary function test which shows how well the lungs are working. Not all employees can use a tight-fitting respirator.

- Air Supply - excess CFM produces a ceiling fan effect of moving air over the user's head and face
- Manual booster increases airflow from 7.6 cfm to 8.1 to handle demands in hot and more extreme conditions
- Adjustable for many head and nose sizes
- ESM continually monitors all functions and provides self diagnostics
- Audible and status indicator LED's in front of helmet for low battery, low airflow, filter change alarms
- Quick change HEPA filter cartridge
- Wide vision face-shield: impact and scratch resistant.

### PureFlo PF60+ equipped as follows:

		Replacements
PRO2020SP:	NIOSH HEPA Filter	\$ 44.47
PRO2030SP:	Rechargeable Battery (2)	\$116.00
PRO2040SP:	Battery Charger	\$198.00

PRO2510P:	Premium HD Visor Protectors, 4 Pk	\$ 90.00
PRO2545P:	Economical Visor Protectors, 6 Pk	\$ 21.00
PF3000-04-046	Carry Bag	\$ 59.00

**\$1,440.00**  
#PRO5814-B-0A1

**Lift-able / Retractable Visor  
ANSI Approved Hard Hat  
•& Face Shield / Visor**

**Battery Powered PAPR  
Incoming Air is Filtered  
Provides Cooling Effect**
