# Scaffold Vacuums

12 & 15 Gallon Tanks **WITH** 1 or 2-Motors

Division of Scott Electric • 800-388-2232

**Perfect Size, Weight, Power, Collection Yields**

## 100% Certified HEPA Vacuums

- Specifically Designed for Use on Scaffold  
Compact, Durable, Easy Handling ~ Won't Trip a 20A Breaker
- Tanks Fill 100% - less downtime = greater production
- Operates from a 20A Circuit - with a 13A Grinder
- Interchangeable Motor Heads & Filters
- 2-Motor 250 CFM Vac - 30% smaller & lighter than a Bosch or Hilti 300 CFM 17 Gallon Vac

**BUY 2 GET 1 FREE!**

### "Contractor" Features —

- 2-Motor 250 CFM Vac - with a 13A Grinder operates all day from a 20 Amp Circuit !
- 1-Motor Models (2) include power tool outlet handles 15A grinders - 2<sup>nd</sup> circuit not required !
- Perfect Combination: Tank, Motor(s), Filter System, HD Components built to last, everything works together, tanks to fill to capacity without tripping a 20A circuit !
- Large Collection Yield (of silica dust) = Longer Production:  
12 gal tank holds: 35 lbs., 15 gal tank holds: 50 lbs.
- Filter System: HEPA Filter Stays Clean ~ 6X Filter Life!  
HEPA filter protected by dust shedding, washable cover bag
- USA "Tough Guy" Engineered —
  - > barbed hose inlet - accepts both 1.5" and 2" hoses
  - > 12 ga. x 50' power cord - eliminates an extension cord + HD cord helps prevent tripped circuits
  - > structural, ribbed enforced, polyethylene tanks, rubber wheels & casters, "steel" hold-down clamps
