Dust Guard

- One Bag Fits All the Vacs - Air Pulse Vac Bag Silica Dust Collection

Div. of Scott Electric • 412-605-2992, #Direct

Unstoppable Performance — For All Vacs

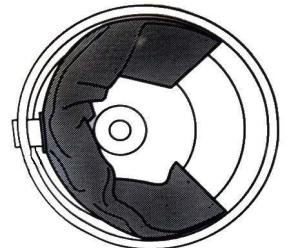

Fits Bosch (all models), Dewalt (both models), Hilti (300 CFM model), Nilfisk, others.

Superior Durability: Bag Fills 100% - No Tearing, Use Less Bag, Work Longer, HEPA Filter Stays Clean

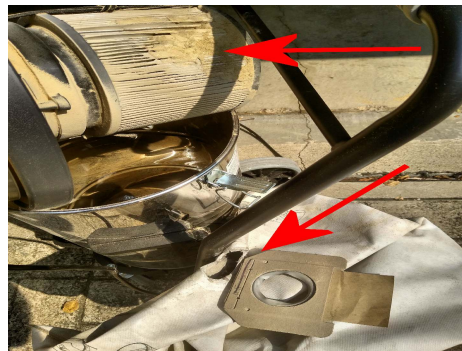

Wrap-Around Bag — Stronger, Greater Durability & Efficiency, Universal Fit

- ▶ Collects & Holds More Silica Dust than Any Other Bag – “without bursting or tearing”
- ▶ Stitched Collar (not glued) - assures 100% fill capacity, less bags used, productivity increases.

Prevents Filter Mishaps:

Regardless of the application or your vacuum - shop vac or HEPA - you can't afford the filter bag to fail.

1) Inferior, low efficiency “fleece” bags allows dust to escape.

2) Bags with glued-on cardboard can't be overfilled (photo, left.)

Prevent Problems: suction drop, short HEPA filter life, changing bags all too often, lost production time, worker health and safety issues.

Superior Production:

1. The outside of the bag stays clean - HEPA filter is kept clean
2. Total Seal - vacuum cold fireplace ash using a standard Shop-Vac® - without dust being exhausted back into the room
3. HD Strength – will not prematurely burst inside the tank if over filled - will not tear or burst even when tossed in a dumpster
4. Sealable Bag – meets EPA/RRP, OSHA Silica Dust regulations for handling & disposal of hazardous debris
5. Versatile - collect anything at the same time: ultra fine powder, sharp objects, moist debris, rotten food, hot mastic, creosote, etc

SPECIFICATIONS:

- 2.5" ID Collar - fits any wet/dry vacuum or dust extractor with a 2-1/2" OD (outside diameter) deflector port
- Fits: Bosch (all models including their 300-CFM vac), Dewalt (both models), Dustless, Fein, Hilti (300-CFM model), Makita, Milwaukee, Nilfisk, Ridgid, Shop-Vac, USA Dust Guard “Scaffold Vacs” (all models).

PRICING — PN: 136514 \$60.00 / 5 pk ! \$500.00 / 50 case.
