Dust Pro 6" with a 6" Grinder: Eliminates using Larger & Heavier Tools (1-5/8" depth-of-cut).

Tuck Pointing ! Crack Chasing ! Tile & Wall Sawing

Highest Rated for: Worker Approved, Dust Containment, Lightweight, Production, Versatility, Visibility!

- ! **Retractable Corner Cover - Increases Production:** Continue grinding into-and-out of inside wall corners and in tight-areas such as honeycomb ceilings in parking garages *without disassembling the guard & no parts to lose*. While designed for tuck pointing, its wide-open visibility and 6" blade capacity makes the Dust Pro 6" the #1 Choice for deeper cutting & crack chasing projects!
- ! **Durable, Lightweight Aluminum:** Instantly notice the difference in weight vs. competitive shrouds. HOW LIGHT IS IT? Dust Pro 6" with a faster cutting 13-amp grinder *weighs less than using a competitive dust guard and an 8-amp grinder*.
- ! **Capture More Dust ! No Clogging Inside the Housing ! No Downtime:** Interior baffle maximizes suction to capture more dust - working conditions, health & safety increases and the 2" dust-port prevents chunks of debris from jamming inside the housing & at the hose connection to prevent unnecessary and costly dust clouds and downtime.
- ! **Universal Collar:** Use the grinder of your preference! Fits electric and battery grinders:
