# Dust Guard

## Dust Pro 6" — The Pro's Choice

Wide Open Blade Visibility — Impeccable Dust Control !

Universal Collar — fits all the major brands:  
Bosch, Dewalt, Fein, Hilti, Makita, Metabo.

Div. of Scott Electric • 412-605-2992 (Direct#)

Guards are shown attached to grinders — grinders & blades not included.

6" Blade Capacity ! 1-5/8" Depth-of-Cut ! Superior Handling & Versatility

**Retractable Corner Cover: Cut Inside Wall Corners, Fit in Tight Spaces**

> Highest Grade — Worker Approval Rating

Versatility & Productivity "On the Wall":

- wide open blade visibility with superior dust containment
- "with less visible dust seen from the road, OSHA is kept away" ~ OSHA Safety Rep.

> 6" x 1/2" Blade Capacity – accommodates a 6" blade for 1-5/8" depth-of-cut and to grind 1/2" wide joints!

**6" Blade - Added Value for Versatility & Production:**

Option of using a 6" blade to cut deeper, reach recessed mortar joints and cut inside wall corners.

\$195.00

**Dust Pro 6" with a 6", 13A grinder & 6" blade eliminates using larger, heavier & less productive tools.**

## Tuck Pointing ! Crack Chasing ! Tile & Wall Sawing

Highest Rated for: Worker Approved, Dust Containment, Lightweight, Production, Versatility, Visibility!

### Features & Benefits:

- ! **Retractable Corner Cover - Increases Production:** Continue grinding into-and-out of inside wall corners and in tight-areas such as honeycomb ceilings in parking garages *without disassembling the guard & no parts to lose*. While designed for tuck pointing, its wide-open visibility and 6" blade capacity makes the Dust Pro 6" the #1 Choice for deeper cutting & crack chasing projects!
- ! **Durable, Lightweight Aluminum:** Instantly notice the difference in weight vs. competitive shrouds. HOW LIGHT IS IT? Dust Pro 6" with a faster cutting 13-amp grinder *weighs less than using a competitive dust guard and an 8-amp grinder*.
- ! **Capture More Dust ! No Clogging Inside the Housing ! No Downtime:** Interior baffle maximizes suction to capture more dust - working conditions, health and safety improves & the 2" dust-port prevents chunks of debris from jamming inside the housing & at the hose connection to prevent unnecessary and costly dust clouds and downtime.
- ! **Universal Collar:** Use the grinder of your preference! Universal collar fits electric and battery grinders:  
**Bosch   Dewalt   Fein   Hilti   Hitachi   Makita   Metabo   Milwaukee   Ridgid**
- ! **Package / Easy Assembly (ref. image, right):** Universal 6" Guard includes installation & operating instructions, (3) spacers, clamping screw, inner blade nut. Select the spacer that best fits your grinder (no spacers are required for Bosch and Fein grinders.) The inner blade nut is optional to use with *all* grinders and blades (1/8", 1/4", 3/8", 1/2"), it's required with Bosch, Dewalt, Fein & Hilti grinders.
