

Smart Chemicals: Eliminate Scrubbing, Save 90% in Labor

NMD 80™
NEW MASONRY DETERGENT

#1 Masonry Washdown Detergent
— as specified by Brick & Block Manufacturers.

NMD 80 - a Spray-On | Rinse-Off Detergent to remove excess mortar, mortar smear, efflorescence, embedded dust and debris from masonry and hardscape surfaces. For use on all masonry substrates including brick, stone, synthetic stone, precast concrete, designer or colored block.

Apply using the EC Jet: Saves you 80% in Water and 90% in Labor vs. using Buckets and Scrubbing. Added buffering ingredients allow NMD 80 to be powerful yet safe enough for glass and anodized aluminum window frames *without Covering the Windows or Frames* *. Achieve extremely effective cleaning including large scale efflorescence removal without using buckets, brushing or scrubbing.

ONE CHEMICAL for USE on MULTIPLE SUBSTRATES. * Always Pre-Test: take a pencil, dip eraser end in undiluted NMD 80 and touch it to the window and frame. Allow product to sit for a minute then rinse it off. Observe results after drying. Cover any hardware if doors or fixtures have been installed before cleaning

Spray-On | Rinse-Off EC JET APPLICATOR

NMD 80 is designed to be used with the EC Jet applicator attached to your pressure washer. Achieve excellent and uniform cleaning results easier and faster *without using buckets, brushing or scrubbing.*

Uses 80% Less Water & Save 90% in Labor vs. Scrubbing.

EC JET - automatically provides the correct 4:1 dilution of NMD 80 (4 parts water to 1 part chemical) to eliminate the need to pre-dilute the product. Equipped with an open/close valve to shut off the chemical in-take and allow for rinsing without the Jet.

Substrate Cleaned: clay brick - initially cleaned with a competitor's product that left the white haze. NMD 80 removed the residual haze and provided the successful post construction cleaning.

Multiple Substrate Cleaned: brick, precast, limestone, granite - all cleaned with just one product: NMD 80!

Substrate Cleaned: brick - excess mortar and smears were removed without affecting the mortar joints using NMD 80 and the EC JET.

For pricing on NMD 80 and EaCo Chem's other Spray-On | Rinse-Off products including a Free EC JET Applicator [< click here >](#)
