## PORTABLE AIR FILTRATION

For Use in Abatement, Hospitals, Air Scrubbing – Any Place Where Dust is a Concern

Two of the most advanced portable air cleaners available on the market - superior form in strong, compact cabinets. Tested and certified for use as both air cleaners and negative air machines.

- HEPA Class H13 Filters - tested and certified at an efficiency rate of 99.99% at 0.3 microns
- 2-Stage HEPA filtration efficiently removes airborne particulates for a healthier and safer work area
- Warning lights indicate when the filters are clogged or leaking
- Pre-filter catch the larger dust particles before the air enters the HEPA filters to ensure efficient operation, longer filter life
- Nuisance pre-filters are available for relief from odors
- Powerful, super quiet two-speed motors capable of delivering thousand of cubic meters of clean air every hour, all day
- Discharged filtered air is directed upwards to avoid disturbing any dust on surfaces.

### A600 — Call for price

- Power: 120v, 3.2A
- CFM: 300 / 600
- Air Volume: 430 ft<sup>2</sup> / 700 ft<sup>2</sup>
- Noise Level: 58 / 65 dBA
- Size: 18.3" x 15.1" x 18.3"
- Weight: 60 lbs.
- Air Exhaust Opening: 8"

### A2000 — Call for price

- Power: 120v, 4.9A
- CFM: 600 / 1200
- Air Volume: 860 ft<sup>2</sup> / 1400 ft<sup>2</sup>
- Noise Level: 60 / 68 dBA
- Size: 28.5" x 16.7" x 31.9"
- Weight: 60 lbs.
- Air Exhaust Opening: 12"
