Dust Guard

HEPAPro MAX - 421 CFM

120 Volt, 3-Motor Dust Extractors

Portable # Convenient 120v Access # No Amp Surge

Div of Scott Electric • 4120-605-2992, #Direct

HEPAPro MAX 421-CFM Dust Extractors

Interchangeable Motor Head, Tanks, Filters

'Same' 421-CFM MOTOR HEAD
3-Tank sizes: 10, 13, 20-Gal on

- No Pre-Filter to Blind ! Portable ! Self-Cleaning

With no resistance to impede suction or airflow, less electrical power is required. Impressive 421-CFM performance without tripping a 20-Amp breaker!

- Vacuum Anything: EPA Lead Paint, OSHA Silica Dust Certified Asbestos, bacteria, creosote, lead dust, mold, silica, etc.

- 100% Tank Fill Capacity ! HEPA Filter Stay Clean
Unlike conventional, self-cleaning dust extractors, HEPA Pro Max dust extractors employ *natural* self-cleaning filtration — ensuring sustained suction without the need for constant cleaning. This not only saves valuable time but also guarantees a consistent 100% suction and energy efficiency.

- Extra-Heavy Gauge Power Cord (12/3 x 50') - Eliminates needing an extension cord plus the heavy-gauge cord helps to keep the motors from overheating.

- Applications:

- Industrial Cleaning, Chimney Sweeping, Clean Rooms, Hospitals, Asbestos, Manufacturing, Hardwood Floor Sanding, Concrete, Masonry, Tuck Pointing

- **Y-Connector** (sold separately) to operate 2-dust control tools from one vacuum

ZERO "0" ELECTRONICS
— Are used to:
> keep the filter clean
> prevent suction drop and amp surge!

SELF-CLEANING — NATURAL FILTRATION
> Air Pulse Collection Bag fills to 100% capacity: will not blind, tear or burst – toss it in a dumpster and it still won't tear
> all filters are kept clean:
- powerful suction performance is constant
- motors & circuits run cool, won't overheat
- uninterrupted productivity & XL filter life.

- Everything works together: tanks fill to capacity, filter stays clean, circuits don't trip, remarkable performance!

- Compact Tanks, Collection Yields:

3 tank sizes: 10 gal holds 35 lbs. of silica dust
13 gal holds 50 lbs. of silica dust
20 gal holds 75 lbs. of silica dust

10 & 13-gallon Tanks
A+ to use on scaffold with the Y-Connector.

Self-Clean Natural Filtration – “Unstoppable Performance”

Large collection yields without suction drop. HEPA filter lasts 10 times longer vs. any other vacuum - completely protected from incoming debris blasting into it. Fully HEPA Certified Vacuum (not just the filter), prevents the bypass of dangerous debris back into the work area.

Self-Cleaning Dacron Filter Protector (left, washable) — Prevents Suction Drop, Assures X-Long HEPA Filter Life (right.)
Collect Creosote, Cold Fireplace Ash, Sharp Objects, Volumes of Ultra Fine Powders — At the Same Time, Without Suction Drop or Compromising the Life of the HEPA Filter.

Pricing / Specs: 5-Stage Self-Clean Filter, 16' x 2" hose, (5) Air Pulse Vac Bags, 2" hose cuff, 1 Year Warranty.

Model	Size Power	Suction	Dimension / Weight	Price
10421	10 Gal 120V 6.5 Amp x 3-Motors	421 CFM, 71" H2O	16.0" x 16.0" x 31", 28 lbs.	\$1,590.00
13421	13 Gal 120V 6.5 Amp x 3-Motors	421 CFM, 71" H2O	14.5" x 18.5" x 41", 40 lbs.	\$1,690.00
20421	20 Gal 120V 6.5 Amp x 3-Motors	421 CFM, 71" H2O	22.0" x 21.0" x 47", 71 lbs.	\$1,990.00
