Dust Guard

HEPA PROMAX

120 Volt, 421 CFM HEPA Dust Extractor

Filtration & Performance Without Tripping a 20-Amp Breaker!

Div of Scott Electric • 4120-605-2992

USA Engineered & Made

No Pre-Filter to Blind or Clog — with no resistance, motors and the 20-amp circuit don't overheat.

421-CFM MOTOR HEAD
2-TANK SIZES: 20 & 13-GALLON
Interchangeable Tanks, Motor Head & Filters

Impressive & Consistent 421-CFM Suction Maintained without tripping a 20-Amp breaker!

- Vacuum Anything: EPA Lead Paint, OSHA Silica Dust Certified Asbestos, bacteria, creosote, fireplace ash, lead dust, mold, silica, etc.
- **Optional Debris Collection:** Your choice to use the Air Pulse Collection Bag (recommended for large collection yields) or the self-cleaning & washable Dacron bag (see image, right.)
- **100% Tank Fill Capacity • HEPA Filter Stay Clean**
Unlike conventional, self-cleaning dust extractors, HEPA Pro Max dust extractors employ *natural* self-cleaning filtration — ensuring sustained suction without the need for constant cleaning. This not only saves valuable time but also maximizes suction performance and assures energy efficiency..

HD Construction & Convenience

- **Extra-Heavy Gauge Power Cord (12/3 x 50')** - eliminates the need for an extension cord plus the heavy-gauge cord assures that the correct cord is being used to help ensure the motor and circuit do not overheat.
- **Compact & Portable:** Perfect for transporting up-and-down stairs, chimney sweep cleaning, using in tight spaces and on scaffold.
- **Large Collection Yields:** Hardwood floor sanding, concrete & masonry cutting, drilling, grinding and tuck pointing ~ **Y-Connector** (sold separately) to operate 2-dust control tools from one HEPA Pro MAX.
- **Everything works together:** tanks fill to capacity, filters stay clean, circuits don't trip, powerful suction is sustained!
- **Compact Tanks, Collection Yields:**
2 tank sizes: 13 gal holds 50 lbs. of silica dust
20 gal holds 75 lbs. of silica dust

ZERO "0" ELECTRONICS
Are used to:
> keep the filter clean
> prevent suction drop and amp surge!

SELF-CLEANING — NATURAL FILTRATION
> Air Pulse Collection Bag fills to 100% capacity: will not blind, tear or burst – toss it in a dumpster and it still won't tear
> all filters are kept clean:
- powerful suction performance is constant
- motors & circuits run cool, won't overheat
- uninterrupted productivity & XL filter life.

Self-Cleaning Dacron Filter Protection Bag (left, washable) — Prevents Suction Drop, Assures X-Long HEPA Filter Life (right.)

Collect Creosote, Cold Fireplace Ash, Sharp Objects, Volumes of Ultra Fine Powders — At the Same Time, Without Suction Drop or Compromising the Life of the HEPA Filter.

Pricing / Specs: 5-Stage Self-Clean Filter, 16' x 2" hose, (5) Air Pulse Vac Bags, 2" hose cuff, 1 Year Warranty.
