### Handles All the Applications: Flat Work & Wall Sawing

## Compact, Powerful Diamond Cutter

Open shroud design for excellent line of sight. Work faster with tool-free cutting depth adjustments and work longer with Metabo's LongLife motor. Ideal for exact, horizontal cutting with forward / push cutting.

Extraction / Containment Guard captures 90% of silica dust when used with appropriate vacuum

As per the OSHA Silica Rule, 25 CFM is required per 1" of blade. For a 9" blade, 225 CFM is required; for a 7" blade, 175 CFM is required.

## Specifications:

- Power: 120 Volt, 15 Amp
- RPM: 6,600
- Blade Size: 9"
- Arbor: 5/8-11"
- Max Depth of Cut: 2-3/8" without base plate
- Vacuum Port: 1-1/2"
- Weight: 17.9 lbs.

As the blade cuts the dust stream follows the curve of the cut, directing it into the vacuum port — maximum dust is collected regardless of the saw's angle to the material being cut.

## 250 & 300 CFM Dust Extractors

— OSHA Silica Dust Compliant for a 9" saw
