## 5-Stage Natural Self-Cleaning

Div of Scott Electric • 4120-605-2992, #Direct

Perfect Size, Weight & No Electronic Filter Cleaning

## HEPA Certified Productivity Vacs

Non-stop performance

— For Use on Scaffold or Where Space & Power is Limited

- the larger the tank the greater the production "on the wall"

- won't trip a 20A breaker when using a 13A Grinder

— Tank Fills 100% ~ less downtime to empty the tank and zero time to clean clogged filters  
EQUALS GREATER PRODUCTION

— Interchangeable: heads, tanks, filters, hoses

— 2-Motor 13 Gal 250 CFM Vac: 30% smaller & lighter than a Bosch or Hilti 300 CFM Vac plus it won't trip a 20A breaker using a 13A Grinder

— 1-Motor Models (2) equipped w power tool outlet powers 15A grinders – 2<sup>nd</sup> circuit not required!

— Everything works together: tanks to fill to capacity, filters stay clean, circuits don't trip, XL filter life, production increases!

— Collection Capacities - of Silica Powder:

**2 tank sizes:** 10 gal holds 35 lbs. of silica  
13 gal holds 50 lbs. of silica

— HEPA Cartridge Filter Stays Clean

Last 10+ times longer vs. any other vacuum!

— USA Tough Guy Engineered:

- > hose barb inlet - nothing to break, accepts a 1.5" and 2" hose
- > heavy gauge power cord (12ga x 50'): benefits include: 1) not needing an extension cord and 2) prevents the motor from running hot & tripping breakers
- > tanks: structural ribbed, enforced polyethylene with rubber wheels & steel hold-down clamps to confirm to HEPA (not just OSHA Silica Dust) Regulations.

Zero "0" Electronics  
— are used to keep the Filter Clean and Prevent Suction Drop!

### 5-STAGE NATURAL FILTER

- > collection bag fills 100%: our Air Pulse Filter bag will not blind, tear or burst, fits both tank sizes
- > all filters are kept clean to assure:
  - maintained suction performance
  - motors & circuits run cool / they'll not overheat
  - uninterrupted productivity & XL filter life.

### 5-Stage Natural Self-Cleaning Filter – "Unstoppable Performance"

Prevents Suction Drop for Large, No-Filter Blinding, Collection Yields. HEPA filter is protected from direct contamination of incoming debris which assures X-long filter life and the 100% HEPA Certified Vac assures against the bypass of dangerous dust back into the work area — all without using electronics.

#### HEPA Filter Protection (I)

Protects the HEPA Filter (r) — Assures it of Long Life, Helps Prevent Suction Drop, Is Washable.

**Pricing / Specs:** includes 5-Stage Natural Filter, 10' x 1.5" hose (2" hose w the 2-motor model), 2" ID hose cuff, 1 Yr Warranty.

Model	Description	Power	Dimension / Weight	Vac w/ (5) Air Pulse Bags
10-125	10 Gal 1000 Watt Motor x 1	125 CFM, 105" H20	16.0" x 16.0" x 25", 23 lbs.	\$ 560.00
13-125	13 Gal 1000 Watt Motor x 1	125 CFM, 105" H20	14.5" x 18.5" x 27", 25 lbs.	\$ 590.00
13-250	13 Gal 800 Watt Motor x 2	250 CFM, 100" H20	14.5" x 18.5" x 32", 35 lbs.	\$1,190.00
