Dust Guard

Slurry Vacs

Water Recycling, Waste Recovery, Flood Reclamation

Debris Containment, *Filtered* Liquid Discharge

Division of Scott Electric • 800-388-2232

Rugged Durability, High Performance

— Designed Specifically for the Demanding World of Concrete Slurry

Pump-Out Vac

- > Compact, Durable, Internal Pump-Out Vacuum
- > Outperforms conventional shop vacuums 5:1

Optional 29" Front Mount Squeegee - shown below

Combined with the integrated sump pump to vacuum slurry in one pass and automatically discharged it - *easy, fast, safe & extremely efficient.*

Equipped as follows:

- HD Discharge Pump – handles abrasive solids, 38 GPM discharge
- HD Abrasive Resistant Collection Bag, Re-useable – screens all types of sludge and solids from the slurry to discharge filtered wastewater, assures continuous extraction and discharge operation, protects the pump's propellers, easy to remove and clean
- 1.5" x 35' discharge hose with cam-lock fittings.

29" Squeegee Vac w/ HEPA Filter

— Vacuum slurry waste or dry powder from floors in one pass

- > Identical to the Pump-Out Vac without the Sump Pump or Slurry Bag
- > Includes a HEPA Filter to vacuum ultra fine dry powders - filter is removed when vacuuming wet or slurry waste.

Both Models Include:

- Overflow Protection – reliable wet shut-off system prevents liquids from reaching and overflowing the tank which would damage the vacuum motor and job site property
- Powerful 10 Amp, 1000 Watt Vacuum Motor: 110 CFM, 105" Water Lift provides efficient pick-up of liquids and sludge, leaves floors dry
- HD 12 Gauge x 50' Power Cord – eliminates needing an extension cord and more importantly it assures that undersize extension cords are not used which causes motors and circuits to overheat
- 120 Volt Power Outlet (accepts the 4.5A sump pump)
- Steel Clamps (2) – secure the motor head to the tank
- Tank: 24 gal, 20 gal capacity – will not dent, puncture or lose its air seal
 - ◆ HD, rotational molded polyethylene with built-in handle, large 10" rear wheels and 4" front swivel casters
 - ◆ easy to transport even when going up and down stairs with a full tank of liquid
 - ◆ 24" drain hose
- Accessories: 1.5" x 10' crushproof hose & tool kit (right)
- Weight: 82 lbs. / 69 lbs, Warranty: 1 year — every component is replaceable & available.
